

Team Management

The complete team overview and management tool for coaches

Set Goals. Measure Results. Improve Feedback. Work Less.

Building on over 15 years of experience meeting the needs of amateur hockey communities with Free Scheduling, Scoring and Standings, BladeNET introduces Team Management - a web-based tool that decreases your workload and improves your feedback to your players.

Plan your season quickly and easily

Reduce your volunteer workload by more than 50% with BladeNET's secure and reliable Team Management software.

- Access Team Management online 24/7.
- Create practice schedules.
- Record exhibition and tournament games.
- Import games and tournaments automatically.
- Integrate all your information for a complete team record.

Help your team be the best they can be

Have the answers when it matters - base your game-day decisions on real historical information and help your team do their best.

- Create balanced and effective line-ups by using Team Management's powerful sorting capabilities to rank players by strength in more than xx categories.
- With complete histories of each player, know exactly which one to put on the ice during that crucial powerplay.
- Compare your players' home and road records to see which players need extra confidence boosters for away games.
- Contrast your team's stats to the best in your club, league, division, province or country to identify areas where you can help your team improve.
- Pinpoint what it would take to bring your team from a B to an A team.

Provide real-time, comprehensive performance feedback to your players

Motivate your players to reach their full potential with up-to-date performance statistics.

- Set team goals for the season.
- Set performance benchmarks for each player.
- Get instant detailed overviews of team performance.
- Keep complete statistics on all your players.
- Communicate with your team using the most up-to-date information.

Plus! Provide your players with an additional opportunity to improve their game

When you subscribe to Team Management, your players gain access to BladeNET Player Statistics. With this powerful online tool your players take advantage of proven training methods to monitor and improve their own performance.

Protect your privacy

With BladeNET, your players have full control over the level of public access to their statistics.

- Your parents decide whether your performance statistics are available for comparison to your team, across your club, league, or country.
- Your parents decide whether to withhold your name and post only your statistics
- BladeNET's privacy policy is the most complete in amateur sport.
- Online access to your statistics is secure.
- The Player Statistics database is continuously backed up.

About BladeNET

BladeNET is a not-for-profit service to the amateur hockey community, built by dedicated hockey volunteers with considerable expertise in delivering online solutions. Since its inception in 1999, BladeNET has fostered a Canadian online amateur hockey community, with hundreds of leagues and over 100,000 amateur hockey players. In line with the spirit of amateur hockey, BladeNET's foremost commitment is to the players and the volunteers that support them.
